OVER THE YEARS

Commentaries based on cataloging over 300 sales

The increased collector activity, as evidenced by the larger attendance at Florida United Numismatists (FUN) Show in Orlando, Florida in January; at the Long Beach Show in February; and at the Suburban Washington, D.C. Show in Lanham, Maryland at the end of February) seems to be gathering momentum. The attendance at the Metropolitan New York Convention at the end of March appeared to be double that of a year ago. In addition, public participation at our last auction was nearly double that of about a year ago. Circulated and lower price material (up to about \$10,000) seems to be most in demand at present. As the cycle picks up momentum, the demand for higher-priced material seems to increase; a normal pattern which has occurred a number of times during the half-century or so that we have kept track of numismatic cycles. The cycles in recent years, though, seem to repeat themselves more frequently.

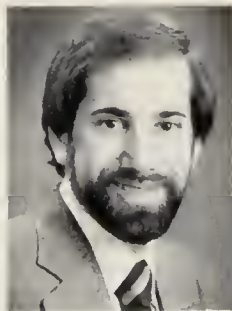

Recently, the "IMPORTANT MESSAGE" appearing in our September 1972 sale was called to our attention—"For years we have counseled and helped advise those wishing to acquire coins and currency as an investment. We define investors as those willing to adopt a program envisioning a minimum of several years. We believe the various reference books are excellent guides—BUT ONLY THAT. We doubt if an intelligent person would attempt to become his own lawyer after reading a law book, or give himself medical treatment after reading a medical book. Why, then, would an intelligent collector, who devotes himself part-time to numismatics, feel he would be as well-equipped to give the best answers in building a numismatic investment as part of his estate, compared to a PROFESSIONAL WHO HAS DEVOTED OVER A THIRD-OF-A-CENTURY TO THE STUDY AND RESEARCH OF NUMISMATICS AS A FULL-TIME PROFESSION."

The message is still as timely now, a decade later, as it was then. Those who take advantage of the services of a professional with years of experience and are willing to wait several years have indeed done well in the past "boom" and will probably repeat the reward in the next cycle.

TERMS OF SALE

This is a public and mail bid sale governed by the following terms:

1. All coins and currency are sold unreserved to the highest bidder.
2. **Your bids, which represent your limits, will be executed with a 10% buyers charge.**
3. Mail bidders are responsible for any errors made in their bid sheets. We cannot accept responsibility for your errors, either in lot numbers or bids.
4. Bidders must establish credit with Kagin's for the total amount of their bids. Those bidding for the first time must supply complete and satisfactory credit references, and a deposit equal to 25% of the total amount of their bids. Deposits will be applied to lots purchased and any unused portion will be refunded after the sale.
5. Bidders who are unknown to us, who wish to pick up their coins at the sale must make prior arrangements with Kagin's.
6. Payments for lots must be made when the coins are picked up or when the invoice is received.
7. All material is guaranteed to be genuine and as described.
8. **Lots purchased by floor buyers CANNOT be returned.**
9. Lots purchased by mail bidders cannot be returned without our written permission.
10. All claims for adjustments must be made in writing within 5 days following the receipt of the coins or invoice. Late remittance for purchases is cause for negating this privilege.
11. Title remains with Kagin's Numismatic Auctions until full payment is received by Kagin's. **ALL REMITTANCES MUST BE IN U.S. FUNDS.**
12. All lots delivered in California are subject to California Sales Tax laws. Postage and insurance will be charged on lots mailed.
13. If there is a dispute between bidders, the auctioneer will determine the final award.
14. If there are duplicate bids, the lot will be awarded to the first bid received by Kagin's.
15. All mailed bids must be received in Des Moines 3 days prior to sale date.
16. All bidders must be of legal age (18) or have their bid sheet signed by an individual of legal age, accepting responsibility for payment.
17. Any lot determined to be inaccurate may be withdrawn from the sale at any time.

10%—10%

KAGIN NUMISMATIC AUCTIONS has instituted a 10%—10% consignment / buyers commission structure. This centuries old European system is becoming widely accepted by most of the major numismatic firms in the United States.

Late bids may be mailed by Special Delivery to Kagin's c/o The LONG BEACH ENTERTAINMENT & CONVENTION CENTER; 300 East Ocean Boulevard; Long Beach, CA 93802. Late bids must be received by Kagin's no later than the morning of Thursday, June 3, 1982. Since bids are frequently received after the sale, late bidders are urged to phone their bids to: Kagin's TOLL FREE 1-800-247-5335.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much To Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the descriptions in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00; we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00—or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet

On the Bid Sheet you will observe that there are two different column headings: Lot and Bid. When you decide on which lots you want to bid, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

| LOT | BID | LOT | BID |
|-----|--------|-----|-----|
| 482 | 550.00 | | |
| 517 | 900.00 | | |
| 614 | 130.00 | | |

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF SALE.

YOU ARE THERE

If you are unable to attend a Kagin's auction, you can bid on material by mail or take advantage of Kagin's "unique" YOU ARE THERE SERVICE. A.M. GRADING STANDARDS

Coins

(Kagin's uses strict ANA grading standards in addition to Dr. Sheldon's for the lower grades — Fair-2 & Poor-1).

MS-70 (Perfect Uncirculated): Once in a great while a perfect coin is sold.

MS-67 (Gem Uncirculated): No bag marks, hairlines, or other evidence of handling or contact with other coins.

MS-65 (Choice Uncirculated): Fully struck with only a bare minimum of minor abrasions.

MS-63 (Select Uncirculated): Nicely struck with fewer than usual bag marks, nice luster.

MS-60 (Uncirculated): Strictly uncirculated with no evidence of wear, only a moderate number of bag marks on surface.

AU-55 (Choice About Uncirculated): Bare traces of friction at the highest points.

AU-50 (About Uncirculated): Traces of wear on many of the highest points.

EF-45 (Choice Extremely Fine): Light overall wear on highest points, all design details very sharp.

EF-40 (Extremely Fine): Slightly more wear than EF-45, still with excellent overall sharpness.

VF-30 (Choice Very Fine): Light even wear on the surface, design details on the highest points lightly worn, sharp lettering and major features.

VF-20 (Very Fine): As preceding, but with moderate wear on highest parts.

F-12 (Fine): Moderate to considerable even wear.

VG-8 (Very Good): Well worn, most fine details worn nearly smooth.

G-4 (Good): Heavily worn, major designs visible, but with faintness in areas, without center detail.

AG-3 (About Good): Very heavily worn with portions of lettering, date, and legends being worn smooth, date barely readable.

Fair-2: Showing very little detail.

Poor-1: Barely recognizable as to type.

Currency

Superb Gem CU (Superb Gem Crisp Uncirculated): A flawless note. Perfectly centered with sharp corners. Full brightness and absolutely no handling or other impairments. Wider than usual margins.

GEM CU (Gem Crisp Uncirculated): Bright and well centered. Full original crispness with no handling or aging. A virtually flawless note.

Choice CU (Choice Crisp Uncirculated): Flawless appearance. Close examination might reveal teller handling, minute pinholes, or very light aging. A note with an excess of the above mentioned defects would not be considered Choice.

CU (Crisp Uncirculated): No folds or corner creases. May have obvious aging, rounded corners, handling marks, pinholes, or other flaws that indicate mishandling. A note that does not retain full crispness or appears starched should be examined for processed or pressed-out folds.

AU (About Uncirculated): The criteria for this grade is basically the same as for Uncirculated but a note may have a single fold or several small corner creases.

EF (Extremely Fine): Two or three creases evident. The note should be bright and retain nearly full crispness.

VF (Very Fine): Notes in this grade show obvious use. May have several folds and have started to lose some of its original crispness. Light soiling due to normal handling is accepted. Heavy soiling and excessive handling or loss of crispness is not acceptable in this grade.

F (Fine): Very little original crispness evident. It should still exhibit its original brightness but will show much handling and soiling.

VG (Very Good): May be soiled and well worn. All engraved features clear and complete. Margins must be intact.

G (Good): Heavily soiled with no original color or body. May have frayed margins and small tears. Engraved features will be visible but not hold.
